Come, come, come to me...  
A yes you got a smile, makes me wow for you baby  
Yes you got a style that turns me on man Ohh  
Please don't be late  
No don't hesitate  
Cuz in a while  
The morning will come  
Yes the morning will come  
Our morning will come  
Yes the morning will  
Come, come, come to me...  
Well you got love that makes me cry for you baby  
Such a special love it turns me on man  
Come in the morning  
In the morning

Yes the morning will come  
Yes the morning will  
Come, come, come to me  
To me only, to me only ohh  
Please don't be late now  
Don't hesitate  
Because in a while  
The morning will come  
Yes the morning (got to)  
Morning will come, yes the morning
