(Yum da yonder  
Yum da yonder  
Yum da yonder  
Yum da yonder)

Even at the end of the street  
Where the trees are plentiful  
It's calling my misery  
It's going to tease me

(Yum da yonder  
Yum da yonder  
Yum da yonder  
Yum da yonder)

I will miss you shadow, oh  
I thought as I left myself  
I could not stay  
For standing there

Even as the birds swoop and  
Cast circles through the air  
The voice came in from the wind

It looks likes we're from one body  
And in a thousand  
Shreds
