Spiritfall - From Now On  
One hundred memories  
I face of the past  
Still i can not believe  
That it's gone this fast  
Speaking louder than me  
I can't hear your words  
Maybe it was just meant to be this way  
[chorus]  
Why do you look  
Look at me this way  
Why do you point  
Point your finger at me  
No i can not play your game  
Things are different yet the same  
No i can not play your game anymore  
Not anymore  
One hundred memories  
I face of the past  
Still i can not believe  
That it's gone this fast  
To speak louder than me  
I can't hear your words  
Maybe it was just meant to be this way  
No you don't know me  
I just speak louder than words  
Maybe it's not the way it used to be  
[chorus]  
Why do you do this to me? (x7)  
No i can not play your game  
Things are different yet the same  
No i can not play your game anymore  
Not anymore  
[chorus]  
Why do you do this to me?
