Calm was the sea when they crossed the ancient seal  
Fear is the key when you see the sword of steel  
See the opened door in the mountain of your god  
Going to war, steel is hungry, thirsty for blood

Farewell to this life, prepare yourself, be ready to die  
Be one with your knife, shield 'n' sword hold' em high  
Cutting pain in your head, all you see turns to red  
Legs feel heavy like lead, last breath you are dead

The Alliance was broken  
No time for token  
The Alliance was broken  
All the words, all the words were spoken
