"Divine Wind"

They're coming out of the sun

Manic battles have begun

Wind falls from the sky

For the glory, they will dive

[Chorus]

Burning planes fall from the sky

To the death kamikazes fly

Desperate weapon of war

They're dying for their lord

Ultimate price they shall pay

It's an honor to die this day

[Chorus]

Burning planes fall from the sky

For the glory they will dive

To the death kamikazes fly
