"Hold On"

Visit "[Hold On](#)" on MotoLyrics.com

With you and I there are no signs
It's one or the other

[Chorus:]

Give me a time and a place and i'll be there I swear
I'm falling from the front to the back of your mind
Lets write this one again with words we never say
Even just pretend if it's the only way
Hold on Hold on to you

Take a breath and hold it in
Are you still unsure?
Let's take a step, let's take two back
While covering our tracks

Give me a time and a place and I'll be there I swear
I'm falling from the front to the back of your mind
Lets write this one again with words we never say
Even just pretend if it's the only way
Hold on to

Say what you have been meaning to
And be what you have been dreaming to
Say what you have been meaning to
Now hold on hold on
Now hold on hold on to
Hold on hold on
Now hold on hold on to you

[Chorus]
