"The Yearbook Song"

Visit "[The Yearbook Song](#)" on MotoLyrics.com

Should i sign your yearbook now
Bringing closure to this all
From this pen shakes my hand
And i raed what you said
As it spins around my head
And i hope you understand

Went until my head spins off again
Wish i was seven years again
Went until my head spins off again
Wish i was seven years again

The time is right upon us now
Until next time is not this fall
And i hope things don't change
And i read what you said
As it spins around my head
And i hope you understand

Went until my head spins off again
Wish i was seven years again
Went until my head spins off again
Wish i was seven years again

I can't stand this half-baked ending
I know that you're undertaken
My heart breaks while your hearts' mending

Went until my head spins
Went until my head spins
Went until my head spins off again
Wish that i was seven years again
Went until my heads spin off again
Wish i was seven years again

Went until my head spins (5x)
Went until my head spins off again
Wish i was seven years again
