Look to The Stars Lyrics

(Give me one more day , see if you still look at me that way

Things don't go the way i plan

I turn my back the only way i can...)

Tell me what it's like!(look to the west side!)

Look to the West side!(look to the west side!)

I'll Figure you out(look to the west side!)

To find me (look to the west side!)

Give me one more day, See if you still look at me that way

If things don't go the way i plan

I'll turn my back the only way i can

Tell me what it's like!(look to the west side!)

Look to the West side!(look to the west side!)

I'll Figure you out(look to the west side!)

To find me (look to the west side!)

I saw myself on top of the world, but the world was'nt on my side

I Saw myself with nothing, Thought i haven't loved you

Can I , Be the , One thing that doesn't change in your eyes(Stars they are my friends)!Can I , Be the , One thing that doesn't change in your eyes(Stars they are my friends)!

In your eyes , In your eyes, In your eyes (Stars they are my friends!)

Can I, Be the , One thing that doesn't change in your eyes!
