How many words I say just to convince myself
That you are not my man
Only some kind of friend
You're gonna shed my babe
Cause you don't fit to say
The love you know is... (expect a thing)
The love you know inside a special dream

How many lies I tell
It's time I meet your friends
They talk behind my back
You know that I don't care
And now I feel so bad
[And now I feel so bad]

The love you know is ... (expect a thing)
The love you know inside a special dream
I have been missing you
But now I wish you to

[Chorus x8]
Keep on falling
Keep on falling on me

But then I found your love
I'm...

Tonight you leave my house
Oh no I feel so down
I hold my breath for you
[I hold my breath for you]
Oh no I know that I can't live with you
I know you know how much I'm loving you

[Chorus x8]
Keep on falling
Keep on falling on me

And if one day you want to come back to me
Don't hesitate to hold me tight
You know what I mean
All I want is you

Is you
All I want is you
Is you

[Chorus many times in background]
Keep on falling
Keep on falling on me
