I ever thought you're a spice
For my beautiful life
Didn't thought I'll get with you
Can't believe your love is true
So our dream could be true
It was a sweet shock
But then like a nice dream
Your profound look
And your eyes sticked on me
Fell in love in you
We must be toghether
Please make it true
Together forever
It's a few days ago
Since then I am not alone
To be this's my sorrow
With you I am happy
Because you make me crazy
It must be love, maybe
It was a sweet shock
But then like a nice dream
Your profound look
And your eyes sticked on me
Fell in love in you
We must be toghether
Please make it true
Together forever
I never forget my surprise
When you looked in my eyes
It was just like in paradise
Never wanna see you cry
It was a sweet shock
But then like a nice dream
Your profound look
And your eyes sticked on me
Fell in love in you
We must be toghether
Please make it true
Together forever
