Fade out with morning sun
I take whatever you complete
You take your orders from the sun
And I take my orders as the come

Whatever you complete
Whatever calms you down
Whatever you believe
So ever comes around
Whatever you complete
Whatever brings you down
Whenever you should leave
You always stay around

Fade out with morning sun
I take whatever you complete
Fade out with morning sun
I take whatever you complete

(Godspeed into the mainstream)

I take whatever you complete

(Godspeed into the mainstream)

I take whatever you complete
