I lost my gold ring long ago
long ago I lost my gold ring, gold
You're such a young girl, wanna go
I wan't to go with such a young girl, like you
I crossed the main land on my own
on my own I crossed the main land, gold
I lost my main pal long ago
long ago I lost my main pal, gold

I know my hard core makes you cold
makes you cold I know my hard core, gold
I lost my dream house long ago
long ago I lost my dream house, gold

Supression the sole and never get enough

This is to me open fire

Open up fire

You've got you're sunday guarantees
quaranteed you've got your sundays free
I've got my friday enemies
enemies I've got my friday, gold
You've got you're high class favourite, be gold
you've got you're got your high class gold
That's such a white man way to go
way to go for such an old man like you

Supression the sole and never get enough

This is to me open fire

Open up fire
