Tiger tiger walk with me  
Take me down these empty streets

What are lives but to decide  
Roads on auto suicide

For all our doubts in lives unknown  
This is true, we die alone

Separate destinies  
Trapped in separate miseries

Tiger tiger walk with me  
Take me down these empty streets

I was killed in infancy  
For every you there was no me

And for all our doubts in lives unknown  
This is true, we die alone

Separate destinies  
Trapped in separate miseries

Tiger tiger walk with me

Separate destinies  
Trapped in separate miseries

Tiger tiger walk with me
