"She Falls In Love With Machines"

Visit "[She Falls In Love With Machines](#)" on MotoLyrics.com

She falls in love with machines, and that's why
she fell in love with me, yeah that's right

She doesn't know what it means to be my girl
she doesn't know what I mean by control

She doesn't know what it takes to be my girl
she doesn't know what I mean by control

Control
Control

She falls in love with machines, and that's why
she fell in love with me, yeah that's right

She doesn't know how to catch the things I throw
she doesn't know what I mean by control

She's never going to feel my love for free
some things I do for you and you for me

And that's control
Control
