It's true  
All this broken glass is warm  
"And the walls are closing in", she said.

The simple task of faith  
Never crossed your mind  
Now daylight shines on your mistake  
Let's hope I'll miss you

Your last words  
They just might work out fine  
"But you sold your heart so long ago", she said.

The simple task of faith  
Never crossed your mind  
Now daylight shines on your mistake  
Let's hope I'll miss you

Blessed be the martyr [x5]  
Blessed be the...  
Because he's all the rage now  
He's all the rage now  
He's all the rage now  
(Watch him burn)

Save yourself from all the other sheep  
Save yourself and say a prayer for me  
He's all the rage now  
He's all the rage now  
You're all the rage now  
It's a shame to see
