Pain puts you at a disadvantage, it's inconvenient  
Don't let your body betray you with this physical  
torment

It's mind over matter, got my mind over my matter  
Mind over matter, got my mind over matter, yeah

Heartache and backache, and toothache and  
headache vexation of the spirit  
Cigarette burns, cold showers for hours  
My training helps me through it  
People with weak hearts should go into training  
I don't let pain deter me  
Sticks and stones may break my bones but they will  
never hurt me

It's mind over matter, got my mind over my matter  
Mind over matter, got my mind over matter, yeah

Mind over  
Mind over matter, makes lean times fatter (x2)  
fatter, fatter, fatter...  
Got my mind over my matter
