We think you're finding something better  
Hey now hey now it's all the same  
And now hey now when you wanna go  
Return to zero  
We hear you're finding something different  
And you know now it's all the same  
And when you realized you fucked up  
And hey now you know you can't  
You won't  
Return to zero  
I don't want your revolution  
I don't need the drugs you're on  
I don't wanna be like you  
Or anything you own  
I just want a better solution  
Want to find some other way out  
I want to find the one who fucked me here in the first  
place  
Pull me out  
I'm being played for an asshole  
I'm be played for a fool  
I'm being twice as fucked up as I used to  
I bet you never even knew  
I bet you couldn't figure out  
You're so fucking stupid  
To think that someone could get used to that  
Just when you thought it was safe to say I love you  
Just when you thought it was safe to go back in the  
water  
Return to zero  
We are the weirdos
