Posting pictures on the wall
Little psycho porno doll
And I don't need to touch you
To know that you've been all around.
She makes my skin crawl
Through it all she gets under
She gets deep within,
Underneath my skin
Hang your name up on the door
Daddys little whore
And I don't need to teaze you
To know that I can piss you off too
She makes my skin crawl
Through it all she get's under
She gets deep within,
Underneath my skin.
Post your picture on the wall
Little fucked up porno doll
This is where you're walking out
Come back tomorrow maybe
I won't be so cold.
