Big pig fucking pig - Look like shit you make me sick
You had it all or at least you thought so
Big stinking smelly pig - stuck in the middle of your
little fit

Misery seems to fit you well

-

You look so alive or at least I thought so
So dumb ya don't even know you're here
Why'z that you look at your reflection
Trying to find the answer

-

Big Pig little pig - they left you in and left you skinless
Prick the needle beg for more
Big piggy, lonely piggy broken down and feeling dizzy
What was it that you came here for

-

You think you know what you're after
Tell me what is it that you'd like

You cannot live without your addiction
Sink your teeth in and bite

-

Please don't look so unattentive
You see the worst is yet to come
I know you'll fuck everything up and
piss of everyone.

-

Big Pig fucking pig look like shit you make me sick
You lost it all and then you fell
Big pig, little piggy broken full of stink and sweat
Your little piggy seems to treat you well
Little pigs never believe in heaven
Crawling further 'cross the floor
You think you're gonna live forever
But hoping that you don't
Big pig fucking pig, thought I loved you, well
..maybe I did.
