

Split Second "Don't Look Back"

Visit "[Don't Look Back](#)" on MotoLyrics.com

some days seem like eternity with you
but still there is nothing else i can do
to keep you here
but i can say
dont worry we're here to lay

chorus:
dont look back
im by your side
we can make it if we try
judgement day is just around the bend
cuz if you leave me
my heart wont mend

for so long ive longed for someone like you
but ive left it up to you to go and choose
hoping i would win
but im held down with a pin

chorus

dont turn around
trust in me

chorus (x2)
