

## Dear Juliet "Never Change"

Visit "[Never Change](#)" on [MotoLyrics.com](https://MotoLyrics.com)

If you hear this  
Wherever you are  
Just know I need you here  
I need you near me now

You were brighter than the pale white moon  
Reflected in your eyes  
So I guess it's no surprise  
I can't forget you  
No matter what I do

I will always carry you  
In my heart  
You'll always be my shooting star

Autumn days will fade away  
But memories will always stay the same  
I'm hoping you will never change  
Don't ever change  
I just need to slow down for awhile  
I'm missing your warm smile  
And the way you used to say  
"Stay with me, until the daylight breaks  
No matter what it takes  
Just say you'll stay  
Just say you'll stay"

I will always carry you  
In my heart  
You'll always be my shooting star

Autumn days will fade away  
But memories will always stay the same  
I'm hoping you will never change  
Don't ever change
