SNOW:

I see a boy who watched his father  
Be beat to death right on the living room floor  
As he watched through the door - You watched through  
the door

Now you're a young man filled with anger  
You know your life on earth could mean so much more  
Don't you know what it's for, I think you know what it's  
for

To love beyond words - (Love beyond all words) - Love  
beyond words

THE KNIGHT:

Now I somehow have understanding  
Like I've never had before in my life  
Do you know what that's like, I think you know what it's  
like

To love beyond words - (Love beyond all words) - Love  
beyond words

To love beyond words - (Love beyond all words) - Love  
beyond words

To love beyond words - (Love beyond all words) - Love  
beyond words
