Been turning a blind eye for the longest time  
Still i see where this is headed  
And my mind is going  
Should i risk it?

It's all been said and done before  
Honestly i'm out of patience  
For anymore of your excuses

Refrain:  
Kicking and screaming  
Inside lies a feeling  
One lowly voice  
Against a backdrop of noise  
Am i on my own?  
Tonight i'll let you know

Chorus:  
I light the fire  
For those of us who wept  
For all the heartache that we felt  
And this is all we need  
This is all i need  
I sing along with each and everyone  
Beneath the sorrow lies someone  
Who's reaching out for a hand  
That's reaching too

A common tale if truth be told  
Familiar as it seems  
My story lies between

Silent and seamless  
The sound of my weakness  
Is drowned in the noise  
Of a world with no voice  
And i take it all  
Tonight the night will know

(chorus)

Take flight when the nightlight's out of sight

Take flight just go and take the night  
Take flight as we share this drink tonight  
Take flight it's our flight i fight tonight

Kicking and screaming  
Inside lies a feeling  
One lowly voice  
Against a backdrop of noise  
Are we on our own?  
Tonight we'll let them know  
(we share the sorrow)

(chorus).....you..oooh...

(go, go) take it all  
Like there's no tomorrow  
(go, go) take it all  
We can live forever
