I look back to me
And what do i see?
It must have been 1993
Had no other care
But the wave of your hair
And the way you wouldn't look at me

What happened that day
Has managed to stay
Through a decade worth of misery
But what did i miss
A moment of bliss--
The best of all the years gone by

Do you know the feeling? (4x)

I want to
Hold your hand
And try to dance but i can't
I want this
Just one kiss
The years fall away

Do you know the feeling? (4x)

Do you know that
I want to hold your hand
But time moves faster now that
I stand still so speechless
How can i bridge the distance?
It just might feel so right
If you could hold me tonight
I want this just one kiss
The years fall away

Do you know the feeling? (4x)
Do you know the feeling? (4x)

Do you know that
I want this just one kiss
Tonight it's all that matters
I want this just one kiss

And it will all be over..

Whenever, wherever
Let's finish what we started
From back then, my silence
Spoke through a ten year absence
In secret, still feel it
Just take my hand and follow
Walk with me 'til tomorrow
You won't have to dance

Now that i see
You've grown out of me
I guess it's back to reality
One night in the park
Held your hands in the park
Made some promises we couldn't keep
Some days i had won
Now here i am on
A time and place apart from me
And what did i miss
A moment of bliss--
The best of all the years gone by
