

Sponge Cola "In Another Life"

Visit "[In Another Life](#)" on MotoLyrics.com

If your world gets lost
Rest assured I am yours
Even for a while
Will make it last a million miles

Don't ever be afraid life
Has ways of keeping you safe
Across this endless stars
I'll take you home it won't be long

I'm still not use to life
Being spent without you
Every breathing moment
I'll be counting the days and nights
Til I'm free to fly
Free to fly with you by my side

On the fields I chase the answers
Been in front of my face
Tomorrow I can see
I live, I breathe for you and me

I hang on to the sound
As of your whole day around
Complete and I leap forward from my sleep
Never let you go
Never close my eyes
As we touch the ground
You I'll protect with my life

If your world gets lost
Rest assured I am yours
I'm still not used to life
Being spent without you every breathing moment
I'll be counting the days and nights
Til I'm free to fly
Free to fly with you by my side
