(Hey!)

(Hey, come in!)

(Ugh, I'm starving.)

Well you can eat whatever you like

You can eat whatever you like

Pork and beans

Cheese Wiz on bread

Or we can eat pasta all night

You know you can eat whatever you like

You can eat whatever you like

Late night snacks it tastes good

It's so nice

I'll gas up the stove for you tonight

And you can have whatever you like

We can eat whatever we like

(Yeah)

Anytime you want to

Open up the fridge you

Know it ain't nothin'

I'll cook somethin' for you

Like macaroni and cheese

We also got left over steak and peas

Yeah I want your food

Need your food

I can have it raw or cooked

Even steamed or brewed

You want it, I got it,

Got get it, I bought it

Just forget about your no-carb diet

Deep fried rice

With extra spice

Or we can eat pizza all night

You know you can eat whatever you like

We can eat whatever we like

Greasy fries and turkey pies

Or we can eat nachos all night

You know you can eat whatever you like

You can eat whatever you like

(Yeah)

Or we can pop some popcorn

With lots of salt and pepper

Or we can make some grilled cheese

I like it with the cheddar

Or we can bake some cookies

Lots of chocolate chips please

Or we can make some smoothies

But please don't add veggies

You never ever have to ask before you eat

I don't mind you takin' my stuff

It's my treat

Cake mix, pixie sticks

Fun dip, cool whip

You don't gotta downsize

You can eat what I eat

My guests can eat what they want

Go to any store buy any food they want

I know you never had a friend like that

To buy you any food your heart desire like that

I want your food

Need your food

Take what you want

You ain't bein' rude

You want it, I got it

Go get it, I bought it

Tell Jenny Craig to just be quiet

Chicken strips

Fish and chips

Or we can eat tacos all night

You know you can eat whatever you like

We can eat whatever we like

Deep fried rice

With extra spice

Or we can eat pizza all night

You know you can eat whatever you like

We can eat whatever we like

(Instrumental)

Beefaroni

Fried balogne

Or we can eat candy all night

You know you can eat whatever you like

We can eat whatever we like

Expired ham

And berry jam

Or we can eat cookies all night

You know you can eat whatever you like

We can eat whatever we like

We can eat whatever we like
