this was our mistake  
yet another horrible mistake  
we've more than settled here  
waging war, inciting fear

i'm trying to remember  
just trying to remember  
we are feeling so alone  
we are feeling so erroneously alone  
and i know what we have here  
yes i know that we've got  
the best thing going on

i'm trying to remember  
just trying to remember  
when we had control  
when we let it go

why can't everyone  
live out happily ever after  
this ain't happening  
don't fall to pieces now

i'm trying to remember  
just trying to remember  
heaven knows all my mistakes  
heaven knows that i'm mistaken  
heaven knows that i'm a freak  
heaven knows what we are making here  
everything we hold  
everything we hold  
everything we hold  
everything we hold
