Closed my eyes and found you
Pools of light become you
This all went down because of you

Easy suffering
Oh, I can't grow up
I'm just a kid lookin' for love
Couldn't find it here on this dry land

Another night without you
Nothing left but a halo underground, it's not you
The sun goes down with you

Easy suffering
Oh, I won't grow up
I'm just a boy lookin' for love
I couldn't find it here on this dry land

Opened my eyes and lost you
Another day goes by without you
I'm goin' down, I'm goin' down

Easy suffering, easy suffering
Oh, I'm gonna grow up
To be a man on the hunt for love
I'm gonna find it here on this dry land
Gonna find it here on this dry land

Gonna find it here
(On this dry land)
Gonna find it here
(On this dry land)
Gonna find it here
(On this dry land)
