Longing for love
Hunting down souls
We're runnin' out of songs to sing

Galactic tides
Will end our lives
Chasing us down
In the moonlight

Chains bound our thoughts
Dreams go unlocked
So leavin' out remains behind for good

Galactic tides
Could end our lives
Taking us out
In the moonlight

Galactic tides
Will end our lives
Taking us down
In the moonlight

Galactic tides
Will end our lives
Taking us down
In the moonlight
