All right, all right already you got me
Broke inside and took it all away
Had a speech prepared and everything
Tapped phone calls from God

And now I've found a new connection
Being bored is really such a chore
Some of us out here don't know shit
Some of us don't even want to know

Clearly this is my life
There goes, there goes, there goes my outfit
And I was only trying to help
I was only trying to help

Just admit, I've got you by the lapels
They trashed me over over and again
You stood there and you said nothing
That's what shattered my heart to bits

Clearly this isn't my life
I'm in the dirt and in the gutter
I've got mud and blood all over my face
Clearly this isn't my life
There goes, there goes, there goes, there goes my
outfit
And I was only trying to help

Clearly this isn't my life
Clearly this can't be my life
