You're such a beautiful delight.
But I found out where you were last night.

Out of my mind, Out of my sight
Into my bed, Into my wife

What more did you want?
What more did you need?
What did he tell you?
Who you do you believe?
Why do you hate me?
Why do we fight?
You answered everyone of these damn questions
Last night.

You came home so latelast night
Thinking everything was all right
No need to fuss - No need to fight.
Tonight will be ... your last night.

What more did you want?
What more did you need?
What did he tell you?
Who you do you believe?
Why do you hate me?
Why do we fight?
You answered everyone of these damn questions
Last night.

Wish I was wrong,
Wish you were right,
I just can't make it through tonight
- without making this right.

When you took off your ring - (last night)
You ruined everything - (last night)
Say goodnight -
Cause tonight will be your...last night
