Do you really want to waste my time
Cuse if you do, I've got nothing to prove
D you really want to shut me out tell
M now, cause I got better things to do
Ad if you don't like what i'm saying
I got something to tell you
S let it go and be somebody
Smebody who will see it through
Jst let it go, unite everybody
Bcasue we only have one world
Ad if you don't like it, it really don't matter
Causee i gotta break the news to you
There's only ONE WAY to skank, it's universal
And if you don't like it, it really don't matter
