Time is what you make of it,  
So don't waste your time being celibate  
Time is what you make of it,  
So don't waste your time saying the hell with it.

Time

When I remember my days of young,  
When I spend my time having fun  
And I remember my days if youth  
When I'd get a dime for my tooth,

Cause when you're young,  
You don't wanna get old  
Then time comes in and takes it's toll  
So do all the things you wanna do  
Cause in your life, this world for you.

Time is what you make of it,  
So don't waste your time being celibate
