May I see you, my darling?
May I walk with you a while?
We could mold these streets to Chicago
If my fingers would only dial

And I hope you won't go far
And I hope you won't go far
And I know you still are fighting it
With no comfort in my words
But here I stay still writing it
I'm as grounded as the birds

And I hope you won't go far
And I hope you won't go far

CHORUS

I need you now like I needed you then
Like I'll need you again
And darling you won't get out of my mind
I can't leave you behind
I need you now like I needed you then
Like I'll need you again

Now I'm dying to feel okay
Those feelings I felt yesterday
And as more gravestones walk through my head
I see the comfort that was in our bed

So I hope you won't go far
And I hope you won't go far

CHORUS

I need you now
I need you again
(etc.)
