

## Dear Whoever "Say Something Else"

Visit "[Say Something Else](#)" on [MotoLyrics.com](http://MotoLyrics.com)

nobody ever said that this  
was so perfect or so easy  
and i was the first one to submit  
all those warnings  
was it not what you're expecting  
(quick how quickly)  
how quickly did the conversation surge  
say all you can we make it  
(quick so quickly)  
and when its all said and done  
i never meant to hurt you  
How could you say those things to me  
so effortlessly  
as there's no possibility  
now that its over  
what do we have to show for all these things  
the possibilities  
it happened so  
(quick how quickly)  
how quickly did the conversation surge

say all you can we make it  
(quick so quickly)  
and when its all said and done  
i never meant to hurt you  
take back what all  
did you never say  
"I don't" "I don't"  
want to hear it anymore  
I have said enough  
enough of this  
we wont survive living like this  
so let's north?  
it happened so  
(quick how quickly)  
how quickly did the conversation surge  
say all you can we make it  
(quick so quickly)  
and when its all said and done  
i never meant to hurt you
