interlude]

Yeah yo Def Squad Full Cooperation on this one yo total concentration

Wassup wit these cats out there? I don't think they figured son

I don't think they hear you son ha ha

[Keith Murray]

Now first but not least you will respect Keith lay a nigga down

Like a doo rag in some grease you must be crazy tryin to play me

I been dedicated since King Tut the third baby

Lyrical chemist rhyme minister, diminished you for the benefit

Then continue to kill shit for the fuck of it, I see y'all been writin

Still bitin, still lookin lame, half y'all niggaz still soundin the same

I'm excitin when live on stage, when receitin in lighting, frightening

lightning

Throwin thunder in chain, when i first came, I gave birth to a million MC's

In the game, who should all carry my last name

And I'm Gonna Get You Sucka like Damon Wayans, and fame like Jermaine

Bring pain and novacaine, okay y'all lil monkeys wanna play?

My Squadron brings the art of war the correct way
(OKAY!)

Chorus 2x

Chorus

I need your full cooperation and total attention

There's a few things I'd like to mention, these rappers
out here swear they're

So appealing I, step to your business and hurt your
feelings

[Erick Sermon]

Okay, well thinkin it's okay to rhyme that way, you'll be
P.O.W., M.I.A.

And I'm seven steps ahead of you, five from eternity

An all that shit you kick just don't concern me, I
separate the dead from

The chump, ask a nigga blunt, "Yo, how many lumps
you want?"

So flavorful you could taste it, so hardcore I wrote this
layin on the floor

In the basement, my style ain't no walk in the park, got
mainstream MC's

Scared to rhyme after dark, an there Ain't No Half-
Steppin

I'm reppin like a nuclear weapon, manifestin the
Immaculate Conception

Lyrically I rape an MC like sodomy, add tragedy, to
your odyssey

For battle reservations call 1-900-SQUAD, frontin on us

Is like frontin on God

Chorus

[Redman]

Now when we take it there, these three niggas in the square

My squad hangs out like fourhundred pounds in braziers

My deathrow allines, bein signed then aligned to electric

So it clear like a chair in Texas, HOT, approach wit extreme caution

No horsin around when my squad abortion a sound

Our crew's like Smokey off sokey, even Little Bo Peep, your style is weak

Guard your Rollie, wit all the ice in it, I snatch the ice out and put a price

out

Cop a Benz, put my mom in it, as long as I'm alive I'mma keep the vibe

24-7, 365

Chorus 2x
