This filthy city ain't got no heart  
It took my time, my money, my car  
Let me broke it down,  
Nothing better to do  
Wondering around with these holes in my pockets  
And holes in my shoes

I walk these city streets,  
Mile after mile on cold concrete  
All looks the same to me  
Lost in the city

The cops pass me by on the avenue  
They don't think twice, they move on by without a clue  
Sixteen am I bad?? Danger up ahead  
I keep myself alive if I can keep moving forward  
And keep them in my head

I walk these city streets,  
Mile after mile on cold concrete  
All looks the same to me  
Lost in the city

And all these people seem so cold  
They're neon castles have all but robbed them of their  
souls  
Well, I'm just broken down  
Nothing left to do  
Wondering around with these holes in my pockets  
And holes in my shoes

I walk these city streets,  
Mile after mile on cold concrete  
All looks the same to me  
Lost in the city  
I'm lost, oh I'm lost again  
Lost in the city ain't it a pity
