Hey, Hey, Hey
What you gotta say
What you gotta do
If you got all day
'Cause they know who you are
They know how you feel

Hey, Hey, Hey
What you gotta say
What you gotta do
If you got all day
'Cause they know who you are
They know how you feel

Do you really know what i say
Do you really know what i do
Do you really know what i say to
You!
Yeah Yeah
You know
They know how you feel
You know
They know how you do
You know
They know what you do
And why you do it
You really know how
You really know
I mean
You really know how
You really know what i say
You really know what i think of that.
