I wanna say hello

To this little girl

Little shining soul

Did you ever imagined

How this could be

This flower means something to me

Gotta love her

Gotta feed her

Gotta stay there by her side

Gotta help her

Gotta be there

Gotta help her not to cry

I wanna say hello

To this little girl

Little shining soul

Little shinning gold

Did you ever imagined

How this could be

This flower means something to me

Bea, my ode to a child
