People of the earth beware,
It is here in human form
An atrocity laced with greed.
Filled with evil intentions.
Ready to attack
[Lead: Andy]

Look to the air for stories to choose,
Who will be your next victim
Profiting on visions of others,
Dark emotions run through it's veins
Its motives are false it's mind is insane
A distant planet with no signs of life
To become a home for this alien breed.
Scientists of the world unite,
Your services are more than needed
This creature in human form is out of control
[Lead: Chuck]

Looks can be deceiving, see beyond the shell
Flesh and eyes mean nothing.
The truth, time it will tell
Before you think you fool the world.
What comes around goes around.
Shown for what you are, a waste of life
[Lead: Andy]
