[BONUS TRACK]

Mangled bodies falling from the sky  
Grotesque mutation ripping out your eyes  
Now a corpses slave you'll learn to rot  
A life of endless gore is what you've got

[CHORUS]

Rotting till the end of time  
In the land of no return  
Here your screams remain unheard  
Watch your flesh decay and burn

In this land there is no night or day  
In pools of blood, the corpses sit and prey  
Unholy carcas begging for relief  
Existing everyday in morbid grief

Searching for your soul  
Nowhere to be found  
Wanting to return  
Six feet under ground

[CHORUS]

Rotting till the end of time  
In the land of no return  
Here your screams remain unheard  
Watch your flesh decay and burn
