

Death

"See through dream"

Visit "[See through dream](#)" on MotoLyrics.com

Born into darkness
Where sounds portay the images
that are out
Out of reach from my sight
Which has been denied
Hands change into my eyes
Body senses intensified
Sight so close yet far away
In dreams my thoughts take their
form
To give memories identity
Through dreams I obtain
The ability to connect sight with
sound
[Solo - Chuck]
Close your eyes and imagine to be
without
What we take for granted every
time we open eyes
A permanent shadow to never step
away
Feel the dark in the cold
Feel the warmth of the light
Which has been denied
Hands change into my eyes
Body senses intensified
Sight so close yet far away
In dreams my thoughts take their
form
To give memories identity
Through dreams I obtain
The ability to connect sight with
sound
