

Death "Together As One"

Visit "[Together As One](#)" on MotoLyrics.com

Labelled a creation of evil
Ridiculed for their shocking appearance
Sharing both please and pain
Two minds, two hearts, one soul
Separating mentally
An illusion of privacy
Together -- they absorb each other's lives
As One -- they will live and they will die
A living hell has begun
Displayed as a nightmare
Criticized through words and eyes
As they stare
To the normal it seems grotesque
Connected by a bond of flesh
Sharing both please and pain
Two minds, two hearts, one soul
Separating mentally
An illusion of privacy
Together -- they absorb each other's lives
As One -- they will live and they will die
A living hell has begun
