

Death

"Within the Mind"

Visit "[Within the Mind](#)" on MotoLyrics.com

Transforming your mind from the inside out
Overcoming fear that made you doubt
Observing what is stored in the subconscious
Trusting what you feel with your gut responses

See past the dark and use your energy
Thoughts that we call dreams

Learn from these images
This power lies within the mind
Gain wisdom through abilities
Change what's to come in future time
Avoiding pain and misery

Look through the fake for what is real
Live for the future and not the past
The weak of mind will never last
Making decisions by what you feel
Analyse your dreams to gain
A better perspective of your life
Perceiving visions that reoccur
In control of your destiny with mind and soul
See past the dark and use your energy

Learn from these images
Thoughts that we call dreams

Change what's to come in future time
Gain wisdom through abilities
This power lies within the mind
Avoiding pain and misery
