We are no fucking rockstars!
Beat them up with our guitars
Hate the emo punk fake
Here is our hate
Depressive little piece of shit
Leave us alone and slit your wrist
Gangsta rapper you're so cool
Motherfucker stupid fool
Christian prophets lying to the masses
AIDS infected fuck their holy asses
You nazi fucker watch your step
We'll bomb your country off the map

Fuck Off and... Die

The shitty makes me mad
Do us a favor and drop dead
To you dirty politician
Please die in a suicide mission
I hate this mankind and all it's lies
I hate you bastards so fuck off and die

I hate this mankind now you know why
I hate you bastards so fuck off and die
I hate this mankind and all it's lies
I hate you bastards so fuck off and die
