

SS-Kaliert "Talking"

Visit "[Talking](#)" on MotoLyrics.com

You really think talking is the way
You think it's bad where you stay
You talk about problems in the world
While you sit in an air conditioned office

[Ref:]
Talking talking about
Problems you don't have

You still try to imagine what's wrong on the planet
But it's way to late your time is wasted
Sending a euro to Africa talking about equality
Poor kids making your shoes talking about humanity

[Ref.]

What's gonna happen when everything goes down
You will still sit there and talk about it
You can't change anything with your mind
Pure conscience is what you try to find
