"Walk with me"

As long as I walk with you
I think I can be safe
The stars that are
Over our heads
Seem to be staring
As long as I walk alone
I will always be afraid
So why can't you
Be so kind
And walk with me

Take care of me
I can't be alone longer
Come take my hand
I dare not see
With my eye

As long as I walk with you
I think I can be safe
The stars that are
Over our heads
Seem to be staring

Take care of me
I can't be alone longer
Come take my hand
I dare not see
With my eye
Take care of me
I can't be alone longer
Come take my hand
I dare not see
With my eye
