You call me angry  
You call me a fool  
I'm nobodys puppet  
And I'm nobodys tool

You tried to hurt me  
Tried to fuck with my mind  
But while your empire rots beneath you  
You turn a blind eye

You drive by in your limo  
Waving your flag  
You've got no budget for aids victims  
'cause it's the blacks and the fags

You live in your white house  
Trading your stocks  
While the homeless sleep outside  
In a fucking cardboard box

You'll get nothing and like it  
You'll eat nothing and like it  
You'll sleep nowhere and like it  
You'll get nothing and like it a lot

Sick and tired  
Of this thieving race  
Murderous, self-serving swine  
You are a fucking disgrace

You tried to hurt me  
You tried to fuck with my mind  
But when your empire rots beneath you  
I'll laugh 'till I die

You'll get nothing and like it  
You'll eat nothing and like it  
You'll sleep nowhere and like it  
You'll get nothing and like it a lot
