Just gonna stand there
And watch me burn
But that's alright
Because I like
The way it hurts
Just gonna stand there
And hear me cry
But that's alright
Because I love
The way you lie
I love the way you lie

Gotta watch you burn like a pyromaniac
Look at the way you made me act
So obscene, not even a time machine would take me
back,
To a time when gravity couldn't hold us down we had to
be,
Together, 24/7, anything else seemed like blasphemy,
Now it's a catastrophe, I'm mad at you, you mad at me,
What happened to us? Its sad to see, I'd rather leave,
Then irritate eachother skate before we hate
eachother,
Fates got something greater that's waitin patient for
each of us...
Don't turn around girl, you know you had enough,
Just go in peace now, yeah throw them deuces up,
We went from two to one, now back to two again,
And despite what we been through, I still call you my
friend,
I love you so much, that's why I gotta let you fly,
We had our moments baby, see em all in the blink of an
eye,
So spread your wings cuz there's better things, when
you sore up high,
And reminisce on this final kiss as we say goodbye...

Just gonna stand there
And watch me burn
But that's alright
Because I like

The way it hurts
Just gonna stand there
And hear me cry
But that's alright
Because I love
The way you lie
I love the way you lie
I love the way you lie
I love the way you lie

I'm not afraid, to let you know,
To take a stand, And let you go,
When the weather turned to rain,
I felt you slowly drift away,
You left me lonely to feel the pain,
Girl I can't believe you'd do this way

Just gonna stand there
And watch me burn
But that's alright
Because I like
The way it hurts
Just gonna stand there
And hear me cry
But that's alright
Because I love
The way you lie
I love the way you lie
I love the way you lie
I love the way you lie
