And we survived, through life and death
Unanswered questions, a night I can't forget
The horror, the sorrow, the shame, all trapped inside
When some on shoots all of the lights

I see you when I close my eyes
All the things I want to change I hide
No longer running from my fears
Shedding my skin, not just shedding tears

And no I know I must forget
And now I know I must forget regret

Life and death, this is killing me
I can't forget, this is eating me alive
Trapped inside, this is burning from inside
Close my eyes

All the things that hold us back
From moving on we strike this match
This torch will lead us right out of the dark
Into light of fire we find our spark

We carry on face the day
For the rest of my life I'll find my way
Out of this prison we learn from the past
We live to fight, we live to fight

And now I know I must forget
And now I know I must forget regret

Life and death, this is killing me
I can't forget, this is eating me alive
Trapped inside, this is burning from inside
Close my eyes

I can't bring back this life
I can't bring back this life
I can't bring back this life

Forget regret

Life and death, this is killing me
I can't forget, this is eating me alive
Trapped inside, this is burning from inside
Close my eyes
